

## Thorax board

Showing the thorax pressure bow in function.

The bow is easy to adjust/slide in longitudinal direction. For indexing there is a ruler at the breast board plate.

The bow is delivered with:

1. Inside measurements of the bow is 290 mm
2. 2 different sizes of pressure plates
3. 1 set of 3 different lengths of pressure screws equipped with scale
4. 1 set of rulers for the board.
5. Will fit to our ConBine and ConChest
